

# Why Won't Rick Santorum Stand Up for Pennsylvania Workers?

Our members construct and maintain the railroad track, bridges, buildings and overhead catenary system for Amtrak's facilities in Pennsylvania. We perform tough, hard, dangerous work in all weather conditions to ensure that this vital public service functions for the citizens of Pennsylvania.

Yet, our Union has now entered its SIXTH year without a collective bargaining agreement on Amtrak. Amtrak's demands for steep cuts in our benefits and reductions in our income have made reaching an agreement impossible. We will arbitrate a new agreement without a strike and Amtrak won't. Santorum could convince Amtrak to do the right thing but won't.

Senator Santorum, you have the ability to resolve this problem, but you have chosen to abandon your responsibilities to Pennsylvania citizens. Will you reconsider your position and stand up for the citizens of Pennsylvania?
